

The City of Plano **Outdoor Warning System**

Is used for these reasons:

- **The National Weather Service issues a Tornado WARNING**
- **Severe Thunderstorm Warnings with High Wind or Large Hail forecast**
- **Hazardous Materials Release**

If you hear the Outdoor Warning Sirens:

- ✓ **Move indoors**
- ✓ **Open your family readiness kit, with flashlight and battery operated radio**
- ✓ **Listen to local TV or radio**
- ✓ **Only call 9-1-1 if you need the immediate response of Police, Fire or Medical**

Have a NOAA Weather Radio with Specific Area Message Encoding (SAME) technology to ensure you will be alerted to weather warnings while indoors.

Remember, the Outdoor Warning System is NOT designed to be heard indoors!

For more information, visit the Public Safety Communications Department at www.plano.gov/PSC or contact Emergency Management at 972-769-4824.
