Cumulative Jobs Created in Plano
Figure VI

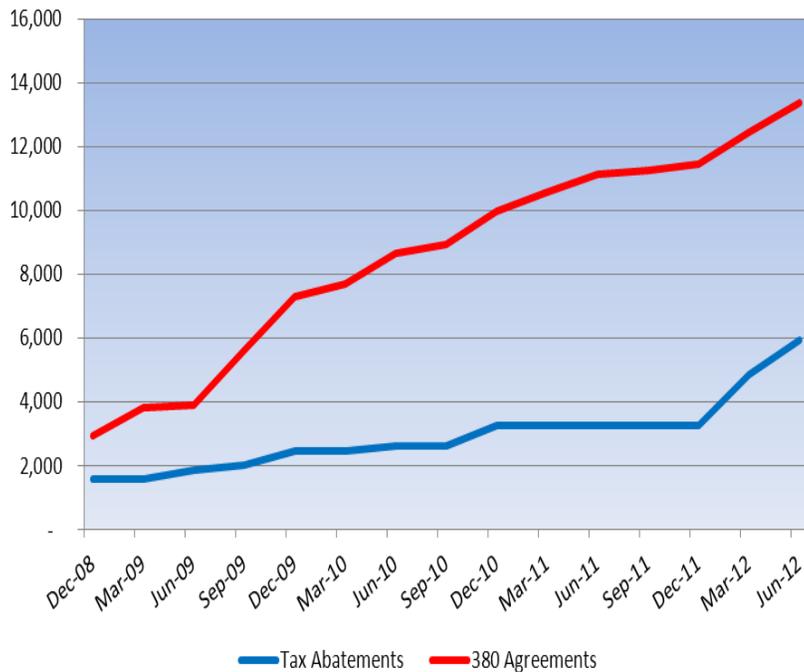

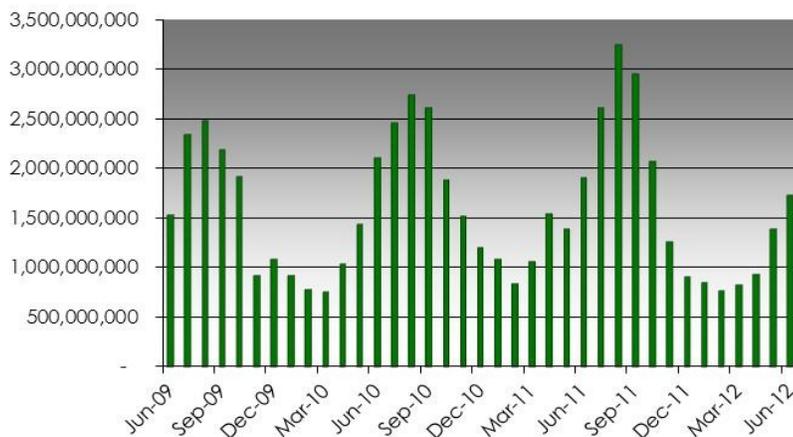

Figure VI, left, tracks the number of jobs cumulatively beginning 4th quarter 2008 created in Plano due to the City entering into either a Property Tax Abatement Agreement or a 380 Economic Development Agreement (380 agreement).

The City of Plano often uses property tax abatements to attract new industry and commercial enterprises, and to encourage the retention and development of existing businesses. The City can limit the property taxes assessed on real property or tangible personal property located on real property due to the repairs or improvements to the property. Only property located within a reinvestment zone is eligible for a tax abatement agreement. During the 2nd quarter of 2012, there were 950 jobs created via tax abatement agreements.

Enacted by the Texas Legislature in 1991, 380 Agreements let cities make loans and grants of public money to businesses or developers in return for building projects within the city. Cities often pay these grants from the increase in sales or property taxes generated by the project. During the 2nd quarter of 2012, 1,092 jobs were created via 380 agreements.

Please note that the quarterly jobs created in this figure are based on the date the agreement was passed by City Council.
