

Personal Enrichment Course 1:
Photo Nuts and Bolts

Want to learn to shoot creatively,
with your camera off the
“Automatic” setting?

This course is an introduction to digital photography. It is aimed primarily for users of Digital Single-Lens Reflex (DSLR) cameras, but “point and shoot” users should get something out of the course, too!

Topic areas will cover lighting, composition, aperture, ISO, shutter speeds, depth of field, bokeh, dynamic range, and camera gear.

You DON'T have to know anything about photography to take the course. It will start at the very beginning: Photography 101.

November 16, 2012

3:00—5:00 P.M.
