### **SUSPICIOUS CIRCUMSTANCES - UPDATE**

On Friday, September 14, 2007, the School Liaison Officer assigned to Shepton High School located at 5505 West Plano Parkway received a delayed report of suspicious circumstances surrounding the illness of a student on Monday, September 10, 2007.

The Plano Police were advised that a 14-year old male student consumed a bottled beverage from a refrigerated unit in the Shepton High School cafeteria. The student became ill and sought treatment at a local area hospital.

Investigators from the Plano Police Department were contacted to determine the circumstances that caused the student to become ill. A sample of the same brand bottled beverage stored in the refrigerated unit has been sent to a local area laboratory for testing and all similar food products have been removed from the school.

Additional information will be made available depending on the results from the laboratory tests. This investigation is currently on-going.
